BON

US Designer & Brand Bonus Prompts + The \$100K Product Roadmap

Each of the 48 prompt templates contains multiple bracket slots and combinable options. Every time you swap a bracket for a different input, you generate a completely unique prompt. The 532+ count is the math — in practice this vault never runs out.

How to Use This Vault

6 steps from open to output

Step	Action	Detail
1 — Choose Tool	Open your AI tool	ChatGPT, Claude, or Gemini for text. Midjourney, DALL-E, Firefly, or Canva AI for visuals (Section 05).
2 — Pick Prompt	Navigate to your goal section	Each prompt is labeled and ready to copy directly into your AI tool.
3 — Fill Brackets	Replace every [BRACKET]	The more specific you are, the better the result. Use exact details about your business, audience, and goal.
4 — Use AI for Brackets	Ask ChatGPT to help fill in brackets	Example: "I sell handmade candles to women 25–40 — help me describe my business for a branding prompt." Paste that answer into the bracket.
5 — Iterate	Refine after first result	Ask: "Give me 3 more variations" or "Make it more bold/professional/emotional." Prompts work best when you refine the output.
6 — Stack Sections	Combine across sections	Run a Branding prompt to define your identity, then feed those results directly into Marketing prompts for perfectly aligned messaging.

◆ KEY POINT

Save your best AI outputs in a dedicated swipe file folder. After 30 days you will have a complete, ready-to-use content library — entirely written in your brand voice by AI.
