This pack gives you the tools, prompts, and brand specifications to generate visuals that are consistent, professional, and unmistakably yours. Every prompt includes a Brand Core Block that anchors AI output to your visual identity.

01 — The AI Tool Stack

8 tools and when to use each

These tools produce the highest-quality brand imagery across different use cases. Use them in combination — each has a distinct strength.

Tool	Best For	Cost	URL
Midjourney	Editorial portraits, atmospheric scenes, luxury product mockups, cinematic quality	From \$10/mo	midjourney.com
Adobe Firefly	Commercial-safe product & marketing visuals. All training data is licensed — legally safe for business use	Free tier / CC	firefly.adobe.com
Leonardo AI	Consistent character generation, brand mascots, product images. Strong fine-tuning models	Free tier available	leonardo.ai
Canva AI (Magic Media)	Social graphics, carousels, presentations with AI-generated elements. Integrated into your design workflow	Canva Pro ~\$15/mo	canva.com
Ideogram	Images that require accurate, legible text — logos, quote graphics, product labels. Best AI for text rendering	Free tier available	ideogram.ai
Runway ML	Animating generated images, creating brand video clips, converting stills to motion for TikTok/Reels	From \$12/mo	runwayml.com
DALL-E 3 (via ChatGPT)	Quick concept visuals, logo sketches, graphic compositions. Accessible directly in ChatGPT Plus	ChatGPT Plus \$20/mo	chat.openai.com
Remove.bg + Photoshop AI	Background removal, generative fill, extending images. Use after generation to clean up and composite	Remove.bg free tier	remove.bg

02 — Brand Visual Identity

Color palette, typography & the Brand Core Block

Every image you generate should pass through this visual identity filter. Consistent use of these parameters builds brand recognition across all platforms.

Color Palette

Name	Hex Code	AI Prompt Keyword	Primary Use
Sovereign Black	#0a0a08	deep charcoal black, near-black	Backgrounds, dominant tone
Sacred Gold	#C9A84C	antique gold, warm ochre, Kemetic gold	Accents, headlines, CTAs
Ancestral Cream	#F5EDD6	warm cream, aged parchment, linen white	Body text, light elements
Aged Bronze	#1a1508	dark olive-black, aged bronze shadow	Section backgrounds, depth layers

Brand Core Prompt Block

Append this block to the end of any image generation prompt to anchor the output to your brand aesthetic. Works across Midjourney, Leonardo, Firefly, and DALL-E.

BRAND CORE BLOCK — APPEND TO ANY PROMPT

All Tools

Visual style: luxury editorial, ancestral aesthetic, architectural grandeur. Color palette: deep black backgrounds, antique gold accents, warm parchment cream highlights. Lighting: dramatic chiaroscuro, single strong golden directional light, deep atmospheric shadows. Texture: aged stone, hammered gold, hand-laid mosaic. Mood: regal, ancient, timeless authority. Composition: cinematic framing, confident vertical orientation. No modern typography visible, no neon or fluorescent colors.

03 — Prompt Library

Ready-to-use prompts organized by category

Customize the bracketed variables for your specific need. Always append the Brand Core Block (Module 02) to maintain visual consistency.

Brand Identity

FOUNDER PORTRAIT

Midjourney /
Leonardo

Editorial portrait of a confident entrepreneur, [age range], dressed in [clothing description]. Setting: [environment – office, library, studio, etc.]. Dramatic Rembrandt lighting, deep background, warm fill light on the face. Composition: upper-body, slight 3/4 turn, direct camera gaze. Style: luxury magazine editorial. --ar 4:5 --style raw

BRAND LOGO CONCEPT

Ideogram / DALL-E
3

Minimalist logo emblem: [describe your symbol or icon concept]. [Your brand color] on pure black background. Style: luxury heritage brand. Vector-clean lines, bold silhouette, no gradients. Text label below: "[YOUR BRAND NAME]" in a bold sans-serif style.

HERO BACKGROUND IMAGE

Midjourney

Wide panoramic establishing shot [describe your setting or landscape]. Deep warm amber and ochre tones. Atmosphere: [mood – grandeur, serenity, power, etc.]. No people. Horizontal format for web banner. --ar 16:9 --s 750

Social Media

QUOTE GRAPHIC (TIKTOK / INSTAGRAM)

Ideogram + Canva

Bold quote graphic. Dark textured background. Centered quote text in large serif font: "[YOUR QUOTE]" – Attribution below in small monospaced font: "– [Your Brand]." Decorative border frame in [your accent color]. Format: 1080x1920 vertical. Mood: [authority / inspiration / education]. No gradients, no neon.

INSTAGRAM CAROUSEL COVER

Canva AI

Carousel slide cover for topic: "[Topic]". Full black background, single horizontal accent rule across top third, large bold headline in cream: "[Headline]", bold number or stat in accent color below. Subtext in small monospaced font: "SLIDE 1 OF [N] · [Brand Name]." Format: 1080x1080 square. High contrast, editorial energy.

YOUTUBE THUMBNAIL

Midjourney +
Canva

YouTube thumbnail. Left half: dramatic portrait, Rembrandt lit, dark background. Right half: bold text overlay – large headline "[Title]", sub-text in white. High energy contrast, slight vignette. Format: 1280x720px. --ar 16:9

Product Imagery

DIGITAL PRODUCT MOCKUP (EBOOK / PDF)

Adobe Firefly /
Leonardo

Luxury book mockup floating against a deep [color] surface with a soft [color] glow beneath it. Book cover shows: [describe your product cover design]. Casts a long dramatic shadow. Slight 10-degree tilt left. Subtle surface reflection. Style: high-end luxury product photography. Format: 800x800px.

PODCAST COVER ART

Midjourney

Podcast cover art 3000x3000px. Centered composition: [describe central object or symbol]. Background: [environment – library, studio, landscape]. Deep blacks and warm lighting. Series title overlay: "[PODCAST NAME]" – subtitle: "[tagline]." --ar 1:1 --s 750

04 — Platform Image Formats

The right size for every platform

Dimensions	Format Name	Platform Use
1080 × 1920	Vertical / Story	TikTok, Instagram Stories, Reels cover, YouTube Shorts
1080 × 1080	Square Post	Instagram Feed, Facebook Post, LinkedIn
1280 × 720	16:9 Landscape	YouTube Thumbnail, OG Image, Website Banner
1200 × 628	Open Graph	Website social preview, Facebook link share
3000 × 3000	Podcast Cover	Spotify, Apple Podcasts, RSS feed artwork
2560 × 1440	Hero / Header	Website hero section, blog header image
800 × 800	Product Thumbnail	Gumroad, Lemon Squeezy product listing image
1400 × 2100	eBook Cover	PDF cover, digital product mockup (2:3 ratio)
1080 × 566	Twitter/X Post	Twitter card image, in-thread visual
1584 × 396	LinkedIn Banner	LinkedIn profile background image
500 × 500	Profile / Avatar	All platform profile images
1920 × 600	Email Header	ConvertKit / MailerLite email banner

05 — Image Production Workflow

From idea to published in 6 steps

Follow this workflow for every image you create. Consistency in process produces consistency in output — which builds brand recognition.

Step 1 — Define the Job

Write one sentence: "This image should make a [target viewer] feel [emotion] and compel them to [action]." This becomes your prompt brief. Do not skip this step.

Step 2 — Generate (4 Variations)

Use the appropriate tool from Module 01. Paste your prompt + the Brand Core Block. Generate at least 4 variations. Do not settle for the first output — iterate twice before finalizing.

Step 3 — Upscale

Upscale your chosen image using the tool's built-in upscaler (Midjourney /upscale, Leonardo's upscaler) or Topaz Gigapixel AI for maximum quality. Target at least 2x the output size for print-safe resolution.

Step 4 — Refine in Canva

Bring into Canva. Remove background if needed (remove.bg). Add typography overlays, brand marks, or text using your Canva template system. Apply consistent color grading: slightly desaturate, warm highlights, increase contrast.

Step 5 — Export Correctly

Export at platform-correct dimensions (see Module 04). Use JPEG at 90% quality for web delivery. PNG for transparency. Always compress with TinyPNG before uploading to your site.

Step 6 — Archive with Consistent Naming

Name every file: [brand]_[type]_[platform]_[YYYYMMDD] — e.g. brand_hero_web_20240315.jpg. Store in a cloud folder organized by year. This prevents asset chaos as your library grows.
