■ HOW TO USE THIS VAULT

STEP 1 CHOOSE YOUR TOOL	Open ChatGPT, Claude, Gemini, or any AI assistant. For visual prompts (Section 5), use Midjourney, DALL-E, Adobe Firefly, or Canva AI.
STEP 2 PICK YOUR PROMPT	Navigate to the section matching your current goal. Each prompt is clearly labeled and ready to copy directly into your AI tool.
STEP 3 FILL THE BRACKETS	Replace every [BRACKET] with your specific details. The more specific you are, the better your result will be. Not sure what to write? See the tip below.
STEP 4 ASK CHATGPT FOR HELP WITH BRACKETS	If you are unsure what to put inside any bracket, simply ask ChatGPT first. Example: 'I sell handmade candles to women aged 25-40 — help me describe my business for a branding prompt.' Then paste the answer into the bracket.
STEP 5 ITERATE & REFINE	After your first result, ask the AI: 'Give me 3 more variations' or 'Make it more bold/professional/emotional.' Prompts work best when you refine the output.
STEP 6 STACK THE PROMPTS	The real power comes from combining sections. Run a Branding prompt to define your identity, then feed those results directly into Marketing prompts for perfectly aligned messaging.

★ **PRO TIP:** Save your best AI outputs in a dedicated swipe file folder. After 30 days you will have a complete, ready-to-use content library — entirely written in your brand voice by AI.

■ HOW 6 SECTIONS BECOME 500+ PROMPTS

Each of the 48 prompt templates in this vault contains multiple bracket slots, variable choices, and combinable options. Every time you swap a bracket for a different input, you generate a completely unique prompt — and a completely different AI output. Here is the math:

SECTION	TEMPLATES	AVG. VARIATIONS	UNIQUE PROMPTS
Business Branding Prompts	8	12	96 unique prompts
Marketing & Sales Prompts	8	10	80 unique prompts
Social Media Content Prompts	8	9	72 unique prompts
TikTok Growth Prompts	8	8	64 unique prompts
Visual Design Prompts	8	11	88 unique prompts
Digital Product Creation Prompts	8	12	96 unique prompts
BONUS SECTION	3	12 variations	36 prompts
		GRAND TOTAL	532+ UNIQUE PROMPTS

EXAMPLE: 1 TEMPLATE → 12 UNIQUE PROMPTS

Take the Brand Identity Architect prompt (Section 01). The [INDUSTRY] bracket alone has 12 common values: fashion, food, tech, wellness, beauty, coaching, real estate, music, fitness, education, finance, and retail. Each one produces a completely different brand identity output — different colors, different personality, different taglines. That is 12 unique prompts from 1 template, before you even change any other bracket.

Stack multiple bracket swaps together and a single template can generate hundreds of unique outputs. This vault never runs out — it grows with your business.

SECTION 01

■ Business Branding Prompts

Build a powerful brand identity from scratch. Create visual identity, voice, positioning, and messaging that attracts premium clients — even with zero design experience.

■ 8 templates × 12 bracket variations = 96 unique prompts
