

THE SCROLLS OF MAAT PRESENTS

MUSIC VIDEO AI PRODUCTION MANUAL

400+ Prompts for Every Stage of AI Music Video Production

ChatGPT	Midjourney	Runway/Kling	ElevenLabs	HeyGen	CapCut
---------	------------	--------------	------------	--------	--------

■ 01 — Concept & Storytelling	■ 02 — Image Generation Prompts
■ 03 — Video Generation Prompts	■ 04 — AI Vocals & Voice Prompts
■ 05 — Editing & Post-Production Prompts	■ 06 — Distribution & Marketing Prompts

Concept • Image • Video • Voice • Edit • Launch

■ YOUR AI PRODUCTION TOOLKIT

This manual is built around a real, proven multi-tool workflow. Each tool has a specific role in the production pipeline. Here is what each one does and when to use it:

ChatGPT	Concept development, scriptwriting, scene planning, marketing copy. Your creative director — start every project here.	Midjourney	Best-in-class image generation for artist portraits, backgrounds, and key art. Use for all still frames.
DALL-E	Built into ChatGPT. Great for quick concept art, storyboard frames, and testing visual ideas fast.	Runway ML	Text-to-video and image-to-video. Best for cinematic clips, abstract sequences, and transitions.
Kling AI	Specializes in realistic human motion. Best tool for artist performance clips and character animation.	Sora	OpenAI's video model. Powerful for long, cinematic world-building shots and establishing sequences.
ElevenLabs	Professional AI voice generation. Use for spoken word intros, narration, and voiceovers.	AI Song Generator	aisonggenerator.ai — create original AI music and instrumentals for your videos.
HeyGen	AI avatar video generation. Create AI presenter segments and talking-head content without a camera.	CapCut	Your editing suite. Assemble, color grade, caption, and export your final video for all platforms.

★ **PRO TIP:** You do not need all tools from day one. Start with ChatGPT + Midjourney + Runway + CapCut. Add ElevenLabs, HeyGen, and Kling as your production quality grows. The monthly cost of all tools combined is less than one day of traditional film production.

SECTION 01

■ Concept & Storytelling

ChatGPT

Every great music video starts with a concept — a visual world that amplifies the emotion of the song. These prompts turn your song idea into a full cinematic treatment before you touch a single AI tool.

■ 8 templates × 10 variations = 80 unique prompts

MUSIC VIDEO CONCEPT GENERATOR

ChatGPT

Act as a music video director and creative strategist.

Song title: [SONG TITLE]

Genre: [GENRE – Hip Hop/R&B/Afrobeats/Soul/Gospel/Trap]

Mood: [MOOD – dark/uplifting/spiritual/rebellious/romantic]

Core message or lyric theme: [DESCRIBE IN 1-2 SENTENCES]

Generate 5 distinct music video concepts:

- Concept name
- Visual world (setting, era, color palette)
- Narrative arc (beginning, middle, end)
- Key visual moment (the scene people remember)
- Cultural or symbolic references to incorporate
- Recommended AI tools to bring this to life

Not sure how to describe your song? Ask ChatGPT:

"Help me describe the mood and theme of a song about [TOPIC]."

SCENE-BY-SCENE BREAKDOWN

ChatGPT

You are a music video director.
Break down [SONG TITLE] into a shot-by-shot visual plan.

Song structure:

- Intro: [DURATION]
- Verse 1: [KEY LYRICS]
- Chorus: [KEY LYRICS]
- Verse 2: [KEY LYRICS]
- Bridge: [KEY LYRICS]
- Outro: [DURATION]

For each section deliver:

- Scene description (visual setting + action)
- Camera angle and movement
- Mood/lighting direction
- Color palette for this moment
- Transition style to next scene
- AI tool recommendation (Runway/Kling/Sora/Midjourney)

VISUAL WORLD BUILDER

ChatGPT

Act as a production designer for a music video.
Artist: [ARTIST NAME] | Genre: [GENRE]
Song theme: [THEME] | Budget level: [LOW/MED/HIGH]

Design the complete visual world:

- Era and setting (time period + location)
- Color story (3 dominant colors + emotional meaning)
- Wardrobe direction for artist
- Set/location design (real or AI-generated)
- Props and symbolic objects
- Lighting philosophy (hard/soft/natural/dramatic)
- Visual references (films, art movements, cultures)
- How AI tools will build each element

LYRIC-TO-VISUAL TRANSLATOR

ChatGPT

You are a visual storytelling expert.
Take these lyrics and translate them into visual imagery.

Lyrics: [PASTE 4-8 LINES OF LYRICS]
Artist vibe: [DESCRIBE ARTIST'S STYLE]
Target audience: [WHO IS THIS FOR]

For each lyric line or phrase deliver:

- Literal visual interpretation
- Metaphorical/symbolic interpretation
- Recommended scene or image
- Midjourney prompt for this visual
- Color and lighting suggestion
- Whether to use video (Runway/Kling) or still (Midjourney)

AFROFUTURIST VIDEO TREATMENT

ChatGPT

Act as an Afrofuturist creative director.
Create a full video treatment for [SONG TITLE] by [ARTIST].
Theme: [THEME] | Cultural roots: [SPECIFY – African/Caribbean/etc.]

Treatment includes:

- Opening image (the first 3 seconds viewers see)
- Symbolic objects and their cultural meaning
- Ancestral or spiritual elements to incorporate
- Futuristic technology elements (AI-generated)
- Color palette rooted in [CULTURE/TRADITION]
- Costume and jewelry direction
- Sacred geometry or patterns to feature
- Closing image (how the video ends)

CINEMATIC NARRATIVE TREATMENT

[ChatGPT](#)

You are a film director writing a music video treatment.

Song: [SONG TITLE] | Artist: [ARTIST NAME]

Story type: [LOVE STORY/RISE & FALL/SPIRITUAL JOURNEY/REVENGE/TRIUMPH]

Write a complete cinematic treatment:

- Logline (1 sentence – what this video is about)
- Main character (who we follow)
- Opening scene (draw the viewer in immediately)
- Turning point (the emotional pivot moment)
- Climax (peak visual and emotional moment)
- Resolution (how it ends – open or closed)
- Visual tone references (2-3 films with similar feel)
- Shot list highlights (5 hero shots that define the video)

ABSTRACT & EXPERIMENTAL CONCEPT

[ChatGPT](#)

Act as an experimental visual artist.

Create an abstract music video concept for [SONG TITLE].

Mood: [MOOD] | Intended feeling: [WHAT VIEWER SHOULD FEEL]

Design a non-narrative visual experience:

- Central visual metaphor or motif
- Color transformation arc (how colors shift through the video)
- Texture and material direction (light/smoke/liquid/geometric)
- Rhythm sync strategy (how visuals match the beat)
- Abstract symbols or shapes to repeat
- AI image generation direction (style, reference artists)
- Transition and morph techniques to use in Runway/Kling
- The ONE image that defines this entire video

VIDEO TREATMENT DOCUMENT

ChatGPT

Write a professional music video treatment document for:

Artist: [ARTIST NAME] | Song: [SONG TITLE]

Label/Self-released: [SPECIFY] | Budget: \$[AMOUNT]

Format as a real director's treatment:

- Cover concept: project title, director, date
- Director's vision statement (150 words)
- Concept overview (200 words)
- Visual references (describe 3 reference images)
- Scene-by-scene breakdown (all sections of the song)
- Technical approach (which AI tools + why)
- Casting/talent notes
- Estimated production timeline
- Deliverables list

This document should be professional enough to share with an artist, manager, or label.

SECTION 02

■ Image Generation Prompts

Midjourney

Still images are the visual backbone of your music video. These prompts generate scene backgrounds, artist portraits, conceptual art, and frame-by-frame references for animation.

■ 8 templates × 11 variations = 88 unique prompts

ARTIST PORTRAIT — MUSIC VIDEO STILL

Midjourney

[ARTIST DESCRIPTION: gender, skin tone, features, style]
wearing [WARDROBE DESCRIPTION]
in [SETTING/ENVIRONMENT]

Visual style: [AFROFUTURIST/CINEMATIC/STREETWEAR/SPIRITUAL]
Lighting: [GOLDEN HOUR/STUDIO DRAMATIC/NEON/CANDLELIGHT]
Color palette: [DOMINANT COLOR] with [ACCENT COLOR] tones
Mood: [POWERFUL/ETHEREAL/DEFIANT/SENSUAL/TRIUMPHANT]
Shot type: [CLOSE-UP PORTRAIT/FULL BODY/ENVIRONMENTAL]

Cinematographic, music video aesthetic,
high production value, editorial quality
--ar 16:9 --style raw --v 6 --q 2

Not sure on style? Ask ChatGPT:
"Describe the visual aesthetic of [ARTIST NAME]'s brand."

SCENE BACKGROUND GENERATOR

Midjourney

[ENVIRONMENT DESCRIPTION] – establishing shot

Setting details: [SPECIFIC LOCATION ELEMENTS]
Time of day: [GOLDEN HOUR/NIGHT/DUSK/MIDDAY]
Weather/atmosphere: [CLEAR/MISTY/STORMY/SURREAL]
Cultural elements: [SYMBOLS/ARCHITECTURE/NATURE]
Color grade: [WARM ORANGE/COOL BLUE/PURPLE/EARTH TONES]
Style: [PHOTOREALISTIC/PAINTERLY/AFROFUTURIST/CYBERPUNK]

Empty scene – no people – cinematic wide angle
ready for character compositing
--ar 16:9 --style raw --v 6 --q 2

AFROFUTURIST WORLD ART

Midjourney

Afrofuturist [SCENE DESCRIPTION]
featuring [CULTURAL SYMBOLS/ELEMENTS]

Architecture: ancient [AFRICAN CULTURE] meets
futuristic technology
Materials: gold, obsidian, bioluminescent elements
Color palette: deep [EARTH TONE] + electric [NEON COLOR]
Lighting: otherworldly glow + ancestral fire
Sky: [NEBULA/TWIN MOONS/AURORA/COSMIC]
Texture: intricate patterns inspired by [TEXTILE/ART FORM]

Ultra detailed, cinematic, Afrofuturist aesthetic
epic scale, sacred geometry, digital art
--ar 16:9 --style raw --v 6 --q 2

CONCEPTUAL ART FRAME

Midjourney

Conceptual art for a music video about [THEME]
representing [EMOTION OR MESSAGE]

Central visual metaphor: [DESCRIBE THE KEY SYMBOL]
Composition: [DESCRIBE LAYOUT – centered/rule of thirds]
Color meaning: [COLOR CHOICE + WHY IT FITS THE THEME]
Surreal elements: [IMPOSSIBLE OR DREAMLIKE DETAILS]
Human presence: [SILHOUETTE/FIGURE/ABSTRACT FORM]
Reference style: [ART MOVEMENT OR ARTIST AESTHETIC]

Emotionally powerful, symbolic, thought-provoking
music video key art quality
--ar 16:9 --style raw --v 6 --q 2

COSTUME & WARDROBE VISUALIZATION

Midjourney

Full wardrobe concept for a music video performer.
Artist type: [MALE/FEMALE/NON-BINARY PERFORMER]
Video style: [AFROFUTURIST/STREETWEAR/LUXURY/SPIRITUAL]
Cultural inspiration: [REFERENCE CULTURE OR MOVEMENT]

Outfit details:

- Primary garment: [DESCRIBE]
- Colors: [PALETTE]
- Accessories: [JEWELRY/HEADPIECE/FOOTWEAR]
- Fabric textures: [MATERIALS]
- Special elements: [EMBROIDERY/SYMBOLS/TECH ELEMENTS]

Fashion editorial quality, full body shot,
neutral background for reference
--ar 9:16 --style raw --v 6 --q 2

SYMBOLIC OBJECT & PROP ART

Midjourney

Product/object photography style render of [OBJECT].
This object represents [SYMBOLIC MEANING] in the video.

Object details: [DESCRIBE SHAPE, MATERIAL, MARKINGS]
Cultural significance: [MEANING OR ORIGIN]
Lighting: [DRAMATIC STUDIO / MYSTICAL GLOW / NATURAL]
Background: [MINIMAL DARK / TEXTURED / ENVIRONMENTAL]
Finish: [GOLD/OBSIDIAN/ANCIENT/FUTURISTIC]
Scale reference: shown with [HANDS/ALONE/IN ENVIRONMENT]

Cinematic product shot, ultra detailed, symbolic weight
--ar 1:1 --style raw --v 6 --q 2

LYRIC VISUALIZATION ART

Midjourney

Visual interpretation of the lyric:
"[PASTE YOUR LYRIC HERE]"

Interpret this literally AND symbolically:
Literal scene: [WHAT THE WORDS LITERALLY DESCRIBE]
Symbolic meaning: [DEEPER EMOTIONAL TRUTH]
Color story: [PALETTE THAT CARRIES THE EMOTION]
Composition: [WIDE/TIGHT/ABSTRACT/PORTRAIT]
Style: [PAINTERLY/PHOTOREALISTIC/SURREAL/GRAPHIC]
Cultural lens: [AFROCENTRIC/UNIVERSAL/SPIRITUAL]

Emotionally resonant, cinematic, visually poetic
--ar 16:9 --style raw --v 6 --q 2

THUMBNAIL & KEY ART

Midjourney

Music video thumbnail / key art for [ARTIST NAME].
Song: [SONG TITLE] | Genre: [GENRE]

Design requirements:

- Artist featured prominently [DESCRIBE POSE/EXPRESSION]
- Background: [ENVIRONMENT OR COLOR]
- Text area: leave space at [TOP/BOTTOM] for title
- Color palette: [COLORS THAT REPRESENT THE SONG]
- Mood: [ENERGY – epic/intimate/dramatic/celebratory]
- Style: [CINEMATIC PHOTO/GRAPHIC ART/ILLUSTRATION]

YouTube thumbnail dimensions in mind – high contrast,
face clearly visible, instantly communicates the song's energy
--ar 16:9 --style raw --v 6 --q 2

SECTION 03

■ Video Generation Prompts

Runway

Turn still images and text prompts into cinematic video clips. These prompts are engineered for Runway ML, Kling AI, and Sora — with specific syntax for each tool's strengths.

■ 8 templates × 10 variations = 80 unique prompts

RUNWAY ML — CINEMATIC CLIP

Runway

[DESCRIBE THE SCENE IN PRESENT TENSE]

Camera: [SLOW PUSH IN / DOLLY LEFT / ORBIT / STATIC]

Movement style: [CINEMATIC FLUID / HANDHELD GRITTY / LOCKED]

Subject action: [WHAT THE PERSON OR OBJECT IS DOING]

Atmosphere: [DESCRIBE LIGHTING + MOOD]

Color grade: [WARM/COOL/HIGH CONTRAST/DESATURATED]

Speed: [NORMAL / SLOW MOTION / RAMPED]

Duration: 4 seconds

Output: 720p or 1080p, 24fps

Tips for Runway:

- Use Image-to-Video with your Midjourney frame
- Keep prompts under 200 characters for best results
- Add 'cinematic' and 'smooth camera' for quality lift

KLING AI — CHARACTER ANIMATION

Kling

[ARTIST/CHARACTER DESCRIPTION] performing [ACTION].

Environment: [SETTING]

Wardrobe: [CLOTHING AND ACCESSORIES]

Expression: [FACIAL EMOTION]

Body movement: [DANCING/WALKING/STANDING/GESTURING]

Camera angle: [EYE LEVEL / LOW ANGLE / BIRD'S EYE / DUTCH]

Lighting: [DESCRIBE LIGHT SOURCE AND QUALITY]

Background: [ENVIRONMENT DETAILS]

Style: music video, cinematic quality, smooth motion

Output: 5-10 seconds, 1080p

Kling tip: Kling excels at realistic human movement – use detailed clothing descriptions for best character fidelity.

SORA — EPIC SCENE GENERATION

Sora

A cinematic music video scene:

[DETAILED ENVIRONMENT AND ACTION DESCRIPTION]

Visual world: [DESCRIBE STYLE, ERA, CULTURAL AESTHETIC]

Time of day: [GOLDEN HOUR / MIDNIGHT / DAWN]

Weather: [CLEAR / STORMY / MISTY / SURREAL]

Camera: starts [WIDE/CLOSE] and [MOVEMENT DESCRIPTION]

Color palette: dominated by [COLOR] with [ACCENT] highlights

Emotional tone: [EPIC / INTIMATE / MYSTERIOUS / TRIUMPHANT]

Duration: 10-20 seconds

Style: photorealistic cinematic, film grain, anamorphic lens

Sora tip: Most powerful for world-building and establishing shots. Combine with Runway for close-ups.

TRANSITION CLIP GENERATOR

Runway

Generate a transition clip between two scenes.

Scene A (ending): [DESCRIBE LAST FRAME OF SCENE A]

Scene B (starting): [DESCRIBE FIRST FRAME OF SCENE B]

Transition style:

[WHIP PAN / MATCH CUT / LIGHT BURST / DISSOLVE /
ZOOM THROUGH / PARTICLE EFFECT / LIQUID MORPH]

Duration: 1-2 seconds

Match element: [WHAT VISUAL CONNECTS BOTH SCENES]

Color bridge: [COLOR THAT APPEARS IN BOTH]

Runway tip: Generate with motion brush on the
connecting element to guide the transition direction.

ABSTRACT VISUAL INTERLUDE

Runway

Abstract visual sequence for a [DURATION] interlude.

Represents: [EMOTION OR CONCEPT]

Visual elements:

- Primary element: [LIGHT/SMOKE/WATER/PARTICLES/FABRIC]
- Color transformation: from [COLOR A] to [COLOR B]
- Movement pattern: [SWIRL/PULSE/EXPAND/COLLAPSE/FLOW]
- Texture: [DESCRIBE SURFACE QUALITY]
- Speed: [SLOW DREAMY / FAST ENERGETIC / RHYTHMIC]

Sync to beat: [DESCRIBE THE MUSICAL MOMENT]

Style: experimental art film, non-narrative, emotionally evocative

Runway tip: Use text-to-video for abstract sequences –
no reference image needed. Prompt the feeling, not the object.

PERFORMANCE CLIP — ARTIST ON SET

Kling

[ARTIST DESCRIPTION] performing [SONG TITLE].

Location: [DESCRIBE SET OR LOCATION]

Performance type: [SINGING DIRECT TO CAMERA /
DANCING / INTERACTING WITH ENVIRONMENT]

Wardrobe: [CLOTHING DESCRIPTION]

Lighting setup: [DESCRIBE – key light direction + fill]

Camera work: [HANDHELD MOVING / SMOOTH DOLLY / STEADICAM]

Extras or props: [IF ANY]

Energy level: [INTENSE / RELAXED / EUPHORIC / CONTEMPLATIVE]

Music video performance aesthetic, professional quality

4-8 second clip, 1080p, 24fps

SLOW MOTION HERO SHOT

Runway

Cinematic slow motion shot of [SUBJECT/ACTION].

Subject: [DESCRIBE IN DETAIL]

The action: [WHAT IS HAPPENING – hair blowing /
fabric falling / liquid splashing / sparks flying]

Frame rate: 120fps slowed to 24fps (5x slow motion)

Lighting: [DESCRIBE – backlit rim / golden practical / strobe]

Background: [SHARP / BOKEH BLURRED / OUT OF FOCUS]

Color: [GRADE/PALETTE]

Emotional purpose: [WHY THIS SLOW-MO MOMENT MATTERS]

Duration: 3-4 seconds final output

Runway tip: Start with a sharp, well-lit Midjourney image.

Slow motion works best on motion-rich, high-contrast frames.

LOOPING BACKGROUND LOOP

[Kling](#)

Generate a seamlessly looping background for [SCENE TYPE].
Used as: background plate behind green-screened artist

Environment: [SETTING DESCRIPTION]

Loop duration: 4-8 seconds (must loop perfectly)

Movement: [SUBTLE WIND / FLOATING PARTICLES /
SLOW CAMERA DRIFT / LIGHT RAYS / CROWD MOVEMENT]

Color palette: [COLORS THAT COMPLEMENT ARTIST WARDROBE]

Depth: foreground elements [PRESENT / ABSENT]

Style: cinematic, high production value

Output: 1080p minimum, seamless loop

CapCut tip: Import this loop on a layer below
your artist footage. Use chroma key to composite.

SECTION 04

■ AI Vocals & Voice Prompts

ElevenLabs

Add professional voiceovers, spoken word intros, character dialogue, and narration to your music videos using ElevenLabs and AISongGenerator.ai — no recording studio required.

■ 6 templates × 9 variations = 54 unique prompts

ELEVENLABS — SPOKEN WORD INTRO

ElevenLabs

Write a spoken word intro for a music video.
Song theme: [THEME] | Artist vibe: [DESCRIBE ENERGY]
Duration target: [15/30/45 seconds]

Style: [SPOKEN WORD POETRY / NARRATIVE MONOLOGUE /
SPIRITUAL DECLARATION / STREET STORYTELLING]

- Script structure:
- Opening line (immediately sets the tone)
 - Core message (2-3 sentences of depth)
 - Bridge into the song (final line leads into the music)

- Voice direction for ElevenLabs:
- Voice type: [DEEP MALE/WARM FEMALE/AUTHORITATIVE/GENTLE]
 - Stability: 0.65 | Similarity: 0.80
 - Speaking pace: [SLOW AND DELIBERATE / BUILDING ENERGY]
 - Emotional quality: [DESCRIBE THE FEELING]

ELEVENLABS — VIDEO NARRATION

ElevenLabs

Write narration for a music video documentary segment.

Artist: [ARTIST NAME] | Subject: [WHAT IT'S ABOUT]

Segment duration: [30/60/90 seconds]

Placement: [INTRO / INTERLUDE / OUTRO]

Narration script:

- Opening statement (who or what we're witnessing)
- Context (the story behind this moment)
- Emotional peak (the most powerful line)
- Closing line (leaves the viewer thinking)

ElevenLabs settings:

- Voice: [VOICE ID OR DESCRIPTION]
- Style exaggeration: 0.3 (natural, not overdone)
- Use SSML tags for [PAUSE] and [EMPHASIS] where needed
- Export as: WAV, 44.1kHz for CapCut import

AISONGGEN — SONG CREATION BRIEF

AISongGenerator

Create an original song for a music video.

Visit: aisonggenerator.ai

Genre: [HIP HOP/R&B/AFROBEATS/GOSPEL/SOUL/TRAP/POP]

Mood: [DARK/UPLIFTING/AGGRESSIVE/ROMANTIC/SPIRITUAL]

BPM range: [SLOW 70-85 / MID 90-110 / FAST 120-140]

Key: [MAJOR – uplifting / MINOR – emotional/dark]

Lyric themes to include:

- Main topic: [WHAT THE SONG IS ABOUT]
- Hook concept: [THE CORE REPEATED MESSAGE]
- Verse 1 story: [OPENING NARRATIVE]
- Bridge emotion: [THE EMOTIONAL PEAK]

Instrumentation:

- Lead: [MELODIC ELEMENT – piano/guitar/synth]
- Rhythm: [DRUM PATTERN STYLE]
- Bass: [HEAVY/SUBTLE/808/ACOUSTIC]
- Additional: [STRINGS/BRASS/CHOIR/808S]

ELEVENLABS — ARTIST VOICE CLONE BRIEF

ElevenLabs

Prepare a voice clone project in ElevenLabs for use in music video voiceovers.

Step 1 – Audio preparation:

- Record [5-10 minutes] of clean voice audio
- Environment: quiet room, no reverb or echo
- Microphone: [USB MIC / PHONE CLOSE-UP / STUDIO]
- Content: read varied sentences (not just one tone)
- Format: WAV or MP3, 44.1kHz minimum

Step 2 – ElevenLabs upload:

- Use: Instant Voice Clone (free tier) or Professional Voice Clone (paid – much higher quality)
- Label: [ARTIST NAME] – MV Voice

Step 3 – Test scripts:

"[WRITE 3 SHORT TEST LINES TO CHECK QUALITY]"

Quality check: compare cloned voice to original.
Adjust stability/similarity sliders for best match.

SPOKEN WORD — CULTURAL DECLARATION

ElevenLabs

Write a powerful cultural declaration for a music video.
Theme: [CULTURAL IDENTITY / LIBERATION / ANCESTRY / TRUTH]
Tradition or origin: [SPECIFY – African/Caribbean/etc.]
Duration: 30-45 seconds

Structure:

- Declaration opening: "We are [STATEMENT]"
- Ancestral reference (connect to those who came before)
- Present power (what we carry today)
- Future vision (what we are building)
- Closing chant or phrase (repeatable, memorable)

Delivery style for ElevenLabs:

- Voice: [ELDER / WARRIOR / POET / PROPHET]
- Pace: measured, deliberate, each word intentional
- Emotional arc: starts grounded, builds to declaration

Not sure? Ask ChatGPT:

"Write a 30-second spoken word piece about [THEME]
in the tradition of [CULTURAL REFERENCE]."

HEYGEN — AI AVATAR VIDEO BRIEF

HeyGen

Create an AI avatar presenter segment using HeyGen.

Purpose: [INTRO / OUTRO / INTERLUDE / BEHIND THE SCENES]

Avatar setup:

- Avatar type: [REALISTIC HUMAN / STYLIZED / CUSTOM]
- Gender presentation: [SPECIFY]
- Wardrobe: [DESCRIBE OUTFIT STYLE]
- Background: [STUDIO / CUSTOM IMAGE / VIDEO BACKGROUND]

Script for avatar: [WRITE THE EXACT WORDS – keep under 90 sec]

HeyGen settings:

- Language: [ENGLISH / SPANISH / FRENCH / OTHER]
- Voice: [MATCH TO ARTIST BRAND – deep/warm/authoritative]
- Speed: 0.95 (slightly slower for impact)
- Gestures: ON – natural hand movement

Export: MP4, 1080p

CapCut use: import as overlay or full segment.

■ Editing & Post-Production Prompts

CapCut

CapCut is your AI-powered editing suite. These prompts and workflows help you assemble, color grade, caption, and finalize your music video — from raw clips to YouTube-ready export.

■ 7 templates × 9 variations = 63 unique prompts

CAPCUT — EDIT STRUCTURE PLAN

CapCut

Plan the complete edit structure for [SONG TITLE].

Total video duration: [SONG LENGTH]

Number of AI clips generated: [NUMBER]

Edit blueprint:

- Intro (0:00-[TIME]): [WHAT PLAYS]
- Verse 1 ([TIME]-[TIME]): [CLIP SELECTION STRATEGY]
- Chorus 1 ([TIME]-[TIME]): [ENERGY/PACE CHANGE]
- Verse 2 ([TIME]-[TIME]): [DEVELOPMENT]
- Chorus 2 ([TIME]-[TIME]): [BUILD]
- Bridge ([TIME]-[TIME]): [EMOTIONAL PEAK]
- Final Chorus ([TIME]-[TIME]): [CLIMAX]
- Outro ([TIME]-END): [RESOLUTION]

Cut rhythm: [FAST CUT 1-2s / MEDIUM 3-4s / LONG 5-8s]

Color grade direction: [WARM/COOL/HIGH CONTRAST/FILMIC]

CAPCUT — AUTO CAPTION STYLE GUIDE

CapCut

Design the caption/subtitle style for [SONG TITLE] music video.
Purpose: lyrics on screen / social media accessibility / both

Caption style:

- Font: [BOLD SANS / SERIF / HANDWRITTEN / FUTURISTIC]
- Size: large enough to read on mobile screen
- Color: [WHITE / GOLD / COLOR THAT POPS OVER VIDEO]
- Outline: [THICK BLACK / NONE / GLOW EFFECT]
- Position: [BOTTOM THIRD / CENTER / DYNAMIC]
- Animation: [WORD BY WORD / LINE BY LINE / FADE / BOUNCE]

CapCut AI Auto-Caption settings:

- Enable: Auto Captions > select language
- Edit timing to sync with vocal delivery
- Highlight key words in [ACCENT COLOR]
- Export with captions burned in for social media

CAPCUT — COLOR GRADING PRESET

CapCut

Create a color grading approach for [SONG TITLE].
Visual mood: [MOOD] | Genre aesthetic: [GENRE]

Color grade direction:

- Shadows: lift to [BLUE/TEAL/PURPLE/ORANGE] tones
- Highlights: pull toward [WARM/COOL/WHITE/GOLD]
- Midtones: [SATURATE/DESATURATE] by [AMOUNT]%
- Overall tone: [WARM/COOL/NEUTRAL/CINEMATIC]
- Skin tones: preserve natural or grade toward [DIRECTION]
- Contrast: [HIGH – punchy / MED – natural / LOW – dreamy]

CapCut filter to start with: [FILTER NAME IF KNOWN]

Then manually adjust: Exposure / Contrast / Saturation /
Color Temperature / HSL (Hue-Saturation-Luminance)

Reference: achieve a look similar to [REFERENCE FILM/VIDEO]

CAPCUT — BEAT SYNC STRATEGY

CapCut

Plan the beat-sync editing strategy for [SONG TITLE].
BPM: [SONG BPM] | Energy level: [LOW/MED/HIGH/VARIABLE]

Beat mapping:

- Use CapCut 'Auto Beat Sync' as a starting template
- Override key moments manually:
 - Drop/chorus hits: cut exactly on [BEAT 1 / DOWNBEAT]
 - Verse sections: slower cuts every [X] beats
 - Build sections: increasing cut frequency
 - Slow moments: long holds with camera movement

Visual rhythm rules for this video:

- Fast sections: cuts every [1-2] seconds
- Medium sections: cuts every [3-4] seconds
- Emotional sections: cuts every [5-8] seconds
- Match cuts: find [VISUAL ELEMENT] that appears in multiple clips to create continuity across cuts

CAPCUT — TRANSITION TOOLKIT

CapCut

Design the transition language for [SONG TITLE].
Video style: [CINEMATIC / ENERGETIC / DREAMY / URBAN]

Transition map by section:

- Standard cuts: [HARD CUT / J-CUT / L-CUT]
- Chorus transitions: [FLASH / WHIP PAN / ZOOM PUNCH]
- Emotional moments: [DISSOLVE / FADE / LIGHT LEAK]
- Beat drops: [GLITCH / STROBE / SMASH CUT]
- Scene changes: [MATCH CUT on element: DESCRIBE]

CapCut effects to use:

- [EFFECT NAME] for [SPECIFIC MOMENT]
- [EFFECT NAME] for [SPECIFIC MOMENT]
- Avoid overuse – max 2-3 transition types per video

Rule: the best transitions are invisible.
Only use bold transitions on the biggest moments.

CAPCUT — SOCIAL MEDIA EXPORT GUIDE

CapCut

Create an export and repurposing plan for [SONG TITLE].
Primary platform: YouTube | Secondary: TikTok + Instagram

Export settings per platform:

YouTube (Full Video):

- Resolution: 4K (3840x2160) or 1080p minimum
- Frame rate: 24fps (cinematic) or 30fps
- Format: MP4, H.264
- Audio: AAC, 320kbps

TikTok/Instagram Reels (Vertical):

- Crop: 9:16 vertical – identify best moments
- Duration: 15, 30, or 60 seconds
- Hook: first 2-3 seconds must grab attention
- Captions: ON – burned into video

YouTube Shorts (Vertical):

- Best moment from the video – under 60 seconds
- Add text hook overlay at start
- Use CapCut's 'Reframe' AI to auto-crop horizontal to vertical

CAPCUT — FINAL POLISH CHECKLIST

CapCut

Final quality check before exporting [SONG TITLE].

Audio:

- Music audio levels balanced (peaks at -3dB to -6dB)
- Voice/narration clear above music
- No audio pops, clicks, or sync issues
- Fade in at start, fade out at end

Visual:

- Color grade consistent across all clips
- No jarring brightness jumps between clips
- Text/captions legible on both light and dark backgrounds
- Intro and outro bumpers included
- Artist name and song title appear on screen

Technical:

- Correct aspect ratio for each platform
- Export resolution meets platform minimum
- File size within platform upload limits
- Thumbnail exported as separate JPG (1280x720)

Final check: watch the full video once with audio OFF to check visual flow, then once with video OFF to check audio.

SECTION 06

■ Distribution & Marketing Prompts

ChatGPT

Creating the video is half the job. These prompts help you launch it, market it, grow your audience, and turn every music video into a content ecosystem that generates views for months.

■ 7 templates × 10 variations = 70 unique prompts

YOUTUBE LAUNCH STRATEGY

ChatGPT

Act as a YouTube music video strategist.

Artist: [ARTIST NAME] | Song: [SONG TITLE] | Genre: [GENRE]

Channel size: [NEW/GROWING/ESTABLISHED] | Target views: [NUMBER]

Create a 30-day YouTube launch strategy:

- Premiere vs. standard upload decision (+ reasoning)
- Optimal upload day and time for [GENRE] audience
- Title formula (SEO + emotion + artist name)
- Description template (keywords + timestamps + links)
- Tags strategy (15-20 tags – mix broad + niche)
- Thumbnail A/B test strategy (2 thumbnail concepts)
- Community post schedule (3 posts before launch)
- End screen strategy (what to drive viewers to next)
- Playlist placement strategy

Not sure on title? Ask ChatGPT:

"Write 5 YouTube title options for a [GENRE] music video about [THEME]."

TIKTOK ROLLOUT PLAN

ChatGPT

Create a TikTok rollout plan for [SONG TITLE] launch.
Artist: [ARTIST NAME] | TikTok following: [NUMBER]

10-video rollout sequence:

Video 1 (1 week before): [TEASER CONCEPT]
Video 2 (5 days before): [BEHIND THE SCENES]
Video 3 (3 days before): [SNIPPET/HOOK REVEAL]
Video 4 (1 day before): [COUNTDOWN/HYPE]
Video 5 (launch day): [BEST CLIP FROM VIDEO]
Videos 6-10 (week after): [REPURPOSE STRATEGY]

For each video:

- Hook (first 3 seconds)
- Caption
- Hashtags (10 targeted)
- Sound strategy (original vs. trending audio)
- Best posting time

Viral strategy: [CHALLENGE / DUET INVITE / REACTION BAIT]

INSTAGRAM MUSIC VIDEO CAMPAIGN

ChatGPT

Design an Instagram campaign for [SONG TITLE] release.
Artist handle: [@HANDLE] | Release date: [DATE]

Campaign timeline (2 weeks):

Pre-release (7 days):

- 3 feed posts (describe each)
- 5 stories (describe each)
- 1 Reel (concept)

Launch week:

- Launch day post (caption + format)
- 3 Reels from video content
- Story series (swipe-up to YouTube)
- Collaboration/feature strategy

Post-launch (week 2):

- Fan reaction content strategy
- Behind-the-scenes drop
- Lyric quote graphic series

Each piece: caption + hashtags + visual direction

PRESS RELEASE WRITER

ChatGPT

Write a professional press release for the release of:

Song: [SONG TITLE] | Artist: [ARTIST NAME]

Release date: [DATE] | Label/Self-released: [SPECIFY]

Press release format:

FOR IMMEDIATE RELEASE

HEADLINE: [ARTIST] DROPS [ADJECTIVE] NEW MUSIC VIDEO
FOR "[SONG TITLE]"

Dateline: [CITY, DATE]

Opening paragraph: who, what, when, where, why

Quote from artist (1-2 sentences, compelling)

Video concept description (2-3 sentences)

Artist background paragraph

Streaming/viewing links section

Contact information

Tone: professional but exciting, music industry standard

Length: 300-400 words maximum

MUSIC VIDEO PITCH EMAIL

ChatGPT

Write a pitch email to [BLOGS/PLAYLISTS/MEDIA OUTLET]
for the music video [SONG TITLE] by [ARTIST NAME].

Outlet type: [DESCRIBE – hip hop blog / streaming playlist / etc.]

Their audience: [DESCRIBE]

Why this video fits their platform: [YOUR REASONING]

Email structure:

Subject line: 3 options (punchy, not clickbait)

Opening: personalized compliment on their platform

Pitch paragraph: what the video is, why it matters now

The ask: specific and easy (feature / add to playlist / share)

Social proof: [STREAMS / VIEWS / PRESS / COSIGNS so far]

Links: video link + press kit link

Sign-off: professional, artist name + contact

Keep it under 200 words. They get 100+ emails daily.

YOUTUBE SHORTS & REELS SCRIPT SERIES

ChatGPT

Create 10 short-form content scripts from [SONG TITLE].

Source content: the music video + making-of footage

Platforms: TikTok / Instagram Reels / YouTube Shorts

For each short (15-60 seconds):

- Title/hook concept
- Script or narration (if applicable)
- Visuals to use from existing footage
- Caption (with hook + hashtags)
- CTA (what to do at the end)

Content types to cover:

- 3 × behind the scenes
- 2 × lyric highlight clips
- 2 × reaction invitation
- 2 × process/how it was made
- 1 × fan challenge or duet prompt

MUSIC VIDEO SERIES PLANNER

ChatGPT

Plan a 3-5 video series to build an artist narrative.

Artist: [ARTIST NAME] | Overall concept: [DESCRIBE ARC]

Timeline: release one video every [WEEKS/MONTHS]

For each video in the series:

Video 1: [TITLE] – [CONCEPT – establishes the world]

Video 2: [TITLE] – [CONCEPT – deepens the story]

Video 3: [TITLE] – [CONCEPT – raises the stakes]

Video 4: [TITLE] – [CONCEPT – emotional peak]

Video 5: [TITLE] – [CONCEPT – resolution or cliffhanger]

Connecting threads between videos:

- Recurring character or symbol: [DESCRIBE]
- Color palette evolution: [HOW IT SHIFTS]
- Story Easter eggs: [HIDDEN CONNECTIONS]

Series marketing strategy:

- How to build anticipation between releases
- Cross-promotion between videos
- Collector's concept (how to reward dedicated fans)

BONUS SECTION

■ Production Mastery Bonus

Three power tools for producers ready to systematize their workflow, understand costs, and turn their AI production skills into a paid service business.

■ 3 templates × 12 variations = 36 bonus prompts

FULL PRODUCTION PIPELINE CHECKLIST

[ChatGPT](#)

The complete AI Music Video production workflow.
Use this checklist for every video you create.

PRE-PRODUCTION (ChatGPT)

- Concept generation – Section 01 prompts
- Scene-by-scene breakdown complete
- Visual world defined (colors, style, era)
- Shot list created
- Storyboard sketched or AI-generated

IMAGE GENERATION (Midjourney/DALL-E)

- Artist portrait references generated
- Scene backgrounds created for each section
- Key art / thumbnail frame created
- Costume and prop references generated

VIDEO GENERATION (Runway/Kling/Sora)

- Key clips generated from best images
- Transitions generated
- Abstract/interlude sequences created
- Looping backgrounds created

AUDIO (ElevenLabs/AISongGenerator/HeyGen)

- Song finalized and exported (WAV)
- Voiceover/narration recorded or AI-generated
- Spoken word intro created (if applicable)

POST-PRODUCTION (CapCut)

- All clips imported and organized
- Edit assembled to song structure
- Beat sync applied and refined
- Color grade applied consistently
- Captions added and styled
- Transitions finalized
- Final polish checklist passed

DISTRIBUTION (ChatGPT for copy)

- YouTube upload with full SEO
- TikTok rollout schedule set
- Instagram campaign scheduled
- Press release sent to 10 outlets
- Short-form content series created

BUDGET BREAKDOWN — AI VS TRADITIONAL

ChatGPT

Compare the cost of AI music video production vs. traditional production for [VIDEO CONCEPT].

Traditional production estimate:

- Director fee: \$[RANGE]
- Videographer/DP: \$[RANGE]
- Location rental: \$[RANGE]
- Wardrobe/styling: \$[RANGE]
- Hair and makeup: \$[RANGE]
- Equipment rental: \$[RANGE]
- Post-production/edit: \$[RANGE]
- Total traditional: \$[TOTAL]

AI production estimate (monthly subscription costs):

- Midjourney: \$10-30/mo
- Runway ML: \$15-35/mo
- Kling AI: \$8-20/mo
- ElevenLabs: \$5-22/mo
- HeyGen: \$29-49/mo
- CapCut Pro: \$0-8/mo
- AISongGenerator: [CHECK CURRENT PRICING]
- Total AI toolstack: ~\$67-164/mo (unlimited videos)

Act as a financial analyst:

Show the cost per video at [1/5/10/20] videos per month and the break-even point vs. traditional production.

SELL YOUR PRODUCTION SERVICES

[ChatGPT](#)

Act as a business strategist.

Help [YOUR NAME/BRAND] monetize AI music video production skills.

Create a service offering:

- Service name and tagline
- 3 packages (Starter / Pro / Premium)
 - What's included in each
 - Turnaround time
 - Price recommendation
- Ideal client description
- Portfolio strategy (which videos to showcase)
- Pricing page copy (headline + 3 benefit bullets per tier)
- How to find first 5 clients (outreach strategy)
- Upsell: from one video to retainer package

Platform to list services:

[FIVERR / UPWORK / OWN WEBSITE / INSTAGRAM DMs]

Target market: [INDEPENDENT ARTISTS / LABELS /
BRANDS / CONTENT CREATORS / CHURCHES]
